

Spring 2

Do Cows Drink Milk?

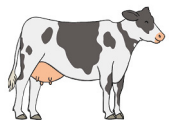

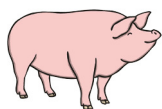

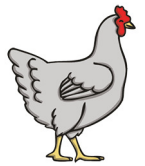

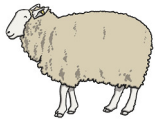

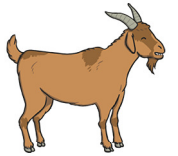

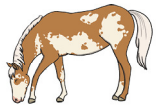

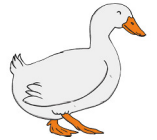

Reception

So far this topic we have learnt about all the animals that live on a farm and the jobs that a farmer does.

Can you have design and make your own farm? You could use Lego for the stable or cereal boxes cut into different shapes? How about making the animals with play dough? What animals will live on your farm? What noises do the animals make? Look around your house or garden and see what you can add to your farm. Using empty toilet paper rolls and milk bottles tops you could have a go at making your very own tractor.

Take pictures of your creation ready to tell us all about it when we are back at school. Remember to have lots of fun!
