

Eco Newsletter

June 2026

Dear Parents and Carers,

We've been busy around the school this month, especially as the weather improved. The Eco-council has been exploring the impact we have on our planet and discussing simple changes we could make in our everyday lives to help protect the environment.

Throughout the month, we have taken part in Walk to School Week, Environment Day, and many other activities aimed at promoting sustainability and environmental awareness for everyone.

Miss P-R

Quote of the month

'What you do makes a difference, and you have to decide what kind of difference you want to make.'

Jane Goodall

Sustainability goal of the month

These are goals set out by the United Nations to help future generations to have a livable world.

The focus this month is:

What have we done?

- Year 4 have been looking at forest tales, thinking about how they represent the planet. They then created their own books!
- Thank you for all your support on our 'Walk to School' week – we can say Cedars blew us away 😊
- We had our first 'Earth Hour' where we switched off the lights and interactive whiteboards.

Three green tips

- Be energy efficient by cleaning out your fridge and freezer to allow the air to circulate easier
- Switch off the lights as you exit the room
- Swap the cling film for tin foil – it's easier to recycle

How could you help?

Cedars' Eco-council are looking at making some bug hotels. We are looking for egg boxes, clean tin cans and yoghurt pots, bits of plywood, washing tablet boxes, and wooden crates.

Donations can be given to class teachers.

What's happening?

Insect Week
18th – 22nd June

It's an opportunity to take part in insect science, get to know insects, learn from experts, and have fun.
