

Eco Newsletter

May 2026

Dear Parents and Carers,

Welcome to the very first edition of our Eco Newsletter! We are excited to share the wonderful work Cedars' Eco Council are doing to help care for the environment and make our school a greener place. Throughout the year, the council have been taking part in a variety of eco-friendly activities, projects, and challenges designed to encourage responsibility, creativity, and kindness towards our planet.

We want to celebrate achievements, share useful environmental tips, highlight upcoming events, and let you know how families can get involved at home and in school.

Miss P-R

Quote of the month

‘Every breath of air we take, every mouthful of food that we take, comes from the natural world. And if we damage the natural world, we damage ourselves.’

David Attenborough

Sustainability goal of the month

These are goals set out by the United Nations to help future generations to have a livable world.

The focus this month is:

What have we done?

- The council members completed a survey to understand how eco-friendly Cedars is
- Created an action plan to help develop our eco-friendly habits
- Planted wild flowers on the playground to promote insect activities
- Placed a water butt on the playground to harvest rainwater

Three green tips

- Try ‘Let it Bloom June’ – this means letting the wildflowers grow to help pollinators like bees and butterflies
- Reduce water use by harvesting rainwater for the drier months
- Buy wonky fruit and vegetables to cut your carbon footprint

How could you help?

Cedars' Eco council are looking for donations of bird feeders and feed to help parent birds with their young. Donations can be given to class teachers or the school's office.

What's happening?

Walk to School Week
18th – 22nd May

We want to encourage everyone to walk to school to reduce fumes and promote a healthy lifestyle!
